

# Accessibility Guide

Accessibility for people with limited mobility

---

*Isla Fuerte Ecohouse · Health and Wellbeing*

# INTRO

At Isla Fuerte Ecohouse, we want every guest to arrive with the information they need to plan their visit with peace of mind. This guide honestly describes the access conditions at our facilities, including both what we provide and the limitations inherent to our natural environment.

# HOW TO REACH THE HOTEL

Isla Fuerte is an island in the Colombian Caribbean that can only be reached by sea. Upon arrival, guests disembark at our private dock.

## ⚠ **Stairs from the Dock**

From the dock to the hotel facilities, guests must climb a staircase. The hotel is located approximately 4 to 5 meters above sea level. This section does not have a ramp or elevator, which may present a difficulty for people with severe reduced mobility or those using a wheelchair.

*If you have any mobility condition, we recommend contacting us before booking so we can assess it together.*

# INSIDE THE HOTEL

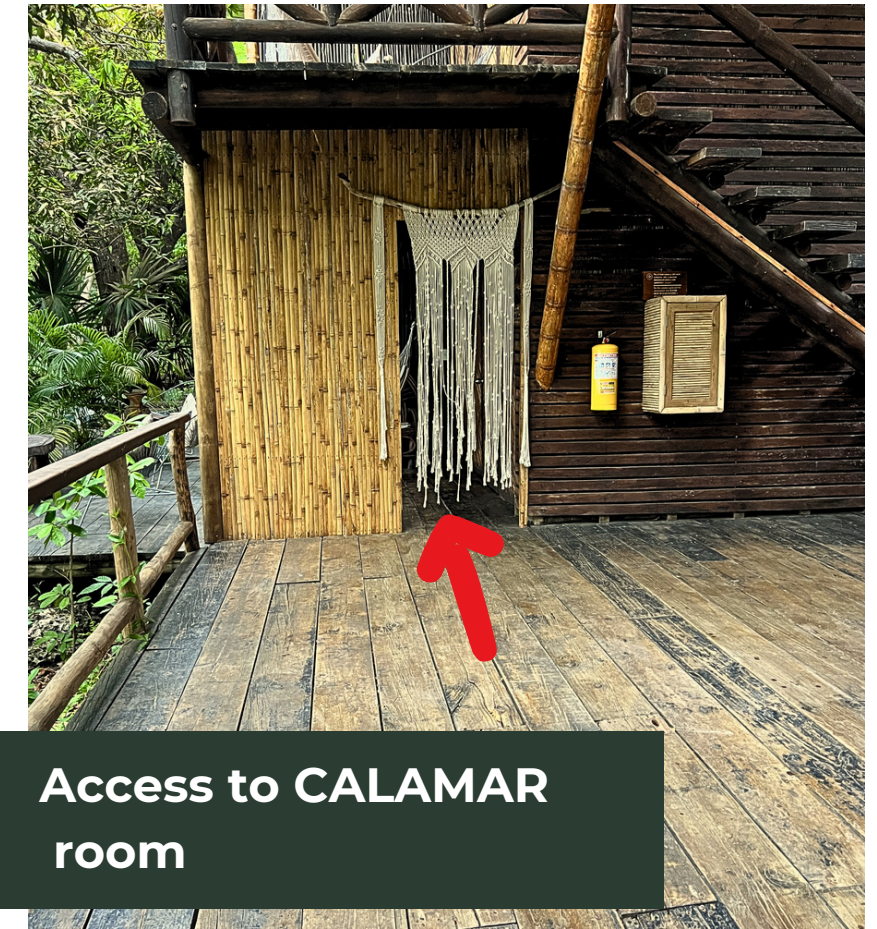

Once inside the facilities, the hotel's covered structure has ramps that allow uninterrupted movement, free of stairs or level changes, between:

- Reception
- Restaurant
- Common relaxation area
- Two accessible rooms

When guests with reduced mobility visit us, we assign one of these two accessible rooms to ensure their comfort and autonomy within the hotel.

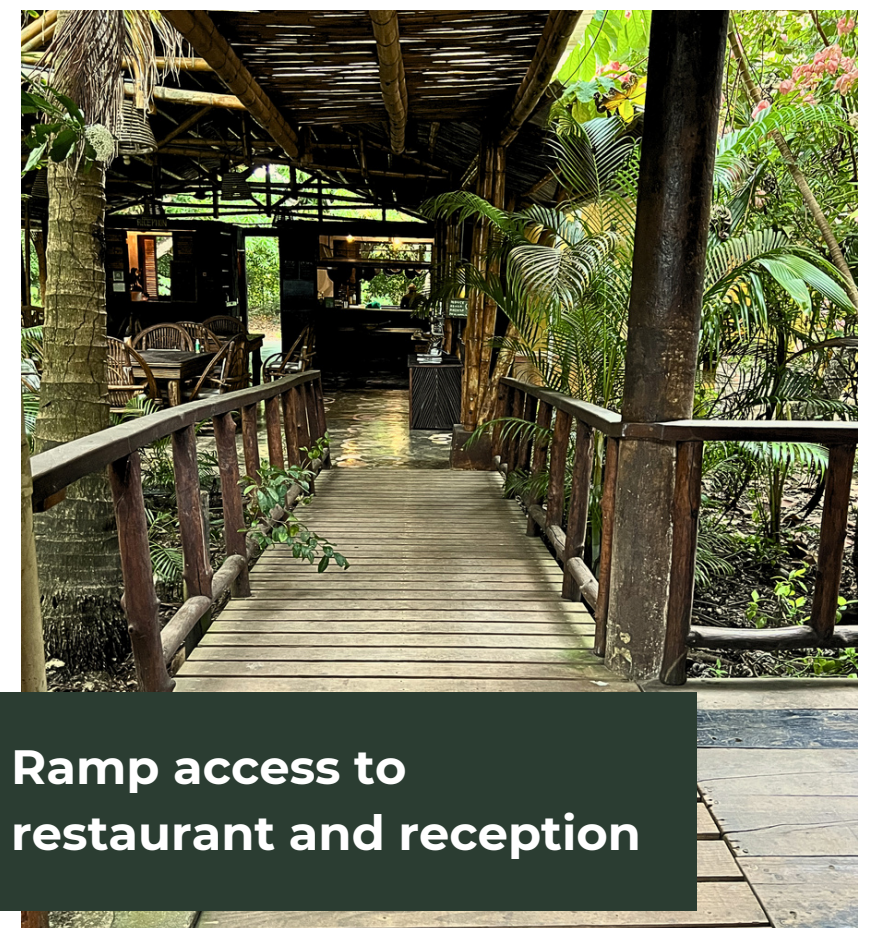

**Ramp access to covered common areas**

**Access to CALAMAR room**

**Access to CANGREJA room**

**Ramp access to restaurant and reception**

# CONSIDERATIONS ABOUT THE ISLAND

Isla Fuerte is a remote natural environment with uneven terrain and unpaved paths. These characteristics, inherent to the island, may present additional limitations for people with very reduced mobility or wheelchair users, both inside and outside the hotel facilities.

*We want to be transparent about this so that every guest can make an informed decision before their visit.*

# HAVE QUESTIONS ABOUT ACCESSIBILITY?

Write to us before booking. We will gladly guide you so you can plan your visit with all the information you need
