# COMMITMENT TO SUSTAINABILITY

## GENERAL OVERVIEW

Ecohouse Hotel is an eco-hotel located on Isla Fuerte, near Cartagena, Colombia. Since its founding in 2018, the hotel has operated with the purpose of offering a hospitality experience in harmony with nature and the local community.

Our project integrates environmental protection, responsible resource management, and collaboration with local producers and organizations.

# OUR PURPOSE

We believe tourism should generate a positive impact on the places where it operates.  
Our sustainability approach focuses on:

01

**Protecting local ecosystems**

02

**Supporting the local community**

03

**Reducing our environmental footprint**

04

**Promoting responsible travel**

# PROTECTION OF THE NATURAL ENVIRONMENT

Our operations incorporate practices designed to protect the fragile ecosystems of Isla Fuerte, including:

1

RESPONSIBLE  
USE OF WATER  
AND ENERGY

2

WASTE  
MANAGEMENT  
AND REDUCTION

3

COMPOSTING OF  
ORGANIC WASTE

4

PROMOTION OF  
ENVIRONMENTAL  
AWARENESS  
AMONG GUESTS

5

PROTECTION OF  
MANGROVES  
AND DRY  
TROPICAL  
FOREST

The ecosystems surrounding our project currently absorb significantly more CO<sub>2</sub> than our operations generate, contributing positively to the territory's carbon balance.

# RESPONSIBLE RESOURCE MANAGEMENT

We actively work to reduce our environmental footprint through:

- [ **01** ] USE OF RENEWABLE ENERGY
- [ **02** ] RESPONSIBLE WATER MANAGEMENT
- [ **03** ] WASTE SEPARATION AND COMPOSTING
- [ **04** ] REDUCTION OF SINGLE-USE PLASTICS
- [ **05** ] FOOD WASTE PREVENTION

# COMMUNITY AND LOCAL ECONOMY

Ecohouse Hotel seeks to contribute positively to the development of Isla Fuerte by:

01

**Prioritizing local employment**

02

**Purchasing products from local producers**

03

**Support for local fishermen, farmers, and transport providers**

04

**Promotion of respect for the local culture and traditions**

# RESPONSIBLE SUPPLY CHAIN

We aim to work with suppliers who share our commitment to responsible practices.

Whenever possible we prioritize local and regional providers, supporting the local economy and reducing transportation impacts.

# MEJORA CONTINUA

## OVERVIEW

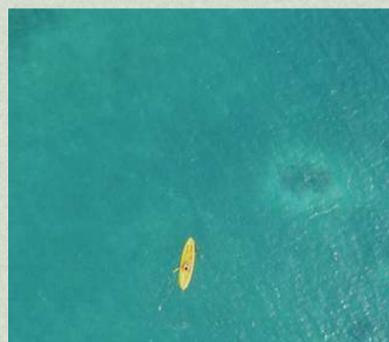

Sustainability is a continuous learning process.

We regularly review our practices, measure our environmental impact, and identify opportunities to improve our environmental, social, and economic performance.

## TRANSPARENCY

Our sustainability policy is publicly available and communicated to employees, suppliers, partners, guests

We believe transparency and shared responsibility are essential to building a more sustainable tourism industry.

# THANK YOU
